DARA RAMANANDHU

B.Tech Data Science Student | Aspiring Data Scientist | Developer

dararamanandhu67@gmail.com • github.com/dararamanandhu67-dara • ramanandhu.vercel.app

PROFESSIONAL SUMMARY

B.Tech Data Science student passionate about Data Science, Data Engineering, Software Development and building real-world applications. Comfortable working with Python, SQL and pandas for data analysis, and with HTML, CSS, JavaScript and React for web development. Focused on learning by building end-to-end projects and preparing for GATE 2027 in Data Science & Artificial Intelligence.

EDUCATION

B.Tech — Data Science Third Year (ongoing)

R.K College of Engineering. Coursework and self-study in programming, statistics, DBMS, computer networks and data science fundamentals.

TECHNICAL SKILLS

Programming: Python, Java, SQL

Data Science & Analytics: Pandas, Data Analysis, Statistics, Data Visualization, Jupyter Notebook, Excel

Databases: MySQL, Firebase Firestore

Web Development: HTML, CSS, JavaScript, React

Data Engineering / Tools: Apache NiFi, Apache Airflow, Git, GitHub

Concepts: OOP, DBMS, Computer Networks, Time Series, SDLC

PROJECTS

Feed Bridge — Food Waste to Needy Connector

A web platform that connects hotels, restaurants and event organisers having surplus food with NGOs and volunteers who distribute it to people in need.

- Built donor and NGO interfaces with food donation request submission and food request management.
- Implemented accept/delete request flows and authentication backed by Firebase Firestore.
- Integrated Google Maps for pickup/location context; deployed on Firebase Hosting.

Tech: HTML, CSS, JavaScript, Firebase, Firestore, Google Maps | **Live:** feed-bridge-5119a.web.app | **Code:** github.com/dararamanandhu67-dara/feed-bridge

ACHIEVEMENTS

- Presented the Feed Bridge project at the college project expo — explaining the problem, the solution, the implementation and its real-world impact.

CONTINUOUS LEARNING

- Currently building skills in Machine Learning, Data Engineering and Full-Stack Development.
- Working through Data Science & Statistics, Advanced Python and SQL practice.
- Preparing for GATE 2027 — Data Science & Artificial Intelligence (Programming, Mathematics, Statistics, Databases, Data Science).
